CORE COMPETENCIES

- Cybersecurity Governance, Risk & Compliance (GRC)
- Cybersecurity Risk Management
- Information Security & Security Awareness
- Teaching, Training & Mentoring
- Research & Scholarly Publications
- Curriculum Development & Academic Coordination
- Blockchain & Smart Contract Security
- Prompt Engineering & AI Tools Utilization
- Project & Stakeholder Management
- Communication, Leadership & Team Collaboration

SOFT SKILLS

- Analytical-Thinker
- Collaborator
- Communicator
- Planner

ACADEMIA

- Ph.D. in Information Security (Pursuing)

Vellore Institute of Technology (VIT), India

- M.Tech – Information Security

Vellore Institute of Technology (VIT), India

- B.Tech – Information Technology

SRM Institute of Science and Technology, India

ERS / CSR & VOLUNTEERING

- Organized sustainability and ethics initiatives.
- Led awareness and community engagement programs.
- Collaborated with diverse stakeholders to execute projects.
- Volunteer – Blue Cross of India (2017).
- Volunteer – Walk for Water, Chennai (2017).

PROFILE SUMMARY

- Cybersecurity, Academia, and Research Professional with 5+ years of experience in Information Security, Cybersecurity Governance, Risk Management, Compliance Awareness, Blockchain, Prompt Engineering, combining academic excellence with practical expertise to strengthen organizational resilience.
- Accomplished Educator and Mentor with 5+ years of teaching experience, successfully delivering undergraduate and postgraduate courses, guiding student projects and research activities, developing curricula, and promoting innovation-driven learning in Information Technology and Cybersecurity.
- Research-Focused Scholar and Ph.D. Candidate with 5+ years of research exposure, having authored publications in reputed journals and contributed to advancements in Blockchain, Visual Cryptography, Privacy, IoT Security, and Secure Online Voting Systems.
- Collaborative Leader with multidisciplinary experience in ERS/CSR initiatives, stakeholder engagement, training, and project coordination, recognized for strong communication, accountability, empathy, and the ability to lead cross-functional teams and awareness programs effectively.

WORK EXPERIENCE

Assistant Professor | Woxsen University, India | July 2024 – Present

- Facilitating undergraduate and postgraduate students in Information Technology and Cybersecurity.
- Guiding research activities and student projects.
- Supporting academic planning and curriculum initiatives.
- Promoting innovation-driven learning practices.

Major Achievements

- Successfully mentored and guided student academic projects.
- Enhanced student engagement through research-oriented learning.
- Contributed to curriculum enrichment initiatives.

Assistant Professor Junior (Fellowship)
Vellore Institute of Technology (VIT), India | September 2020 – Present

- Teaching Information Technology, Cybersecurity, and Research subjects.
- Supervising academic and research activities.
- Coordinating student development initiatives.
- Supporting institutional academic objectives.

Major Achievements

- Successfully taught and mentored undergraduate and postgraduate students.
- Guided student projects and research activities.
- Contributed to curriculum development and academic coordination.

Research Scholar | Vellore Institute of Technology (VIT), India

- Conducting research in Cybersecurity, Privacy, Blockchain, and Information Security.
- Performing literature surveys and analytical investigations.
- Publishing and presenting scholarly work.

Major Achievements

- Conducted impactful cybersecurity research.
- Published research in reputed journals.
- Supported innovation and research initiatives.

Program Manager | Omics International, India | February 2018 – May 2018

- Managed conferences and journal-related activities.
- Executed SEO and digital marketing initiatives.
- Coordinated stakeholder communication.

Achievement

- Generated revenue exceeding $50,000 within three months.

IT FORTE

- Cybersecurity: Cybersecurity, Information Security, Cryptography, Network Security, Malware Analysis, Security Operations Center (SOC), SIEM, Fortinet, Information Security Audit, Wireshark, Cisco Packet Tracer.
- Blockchain: Ethereum, Solidity, Ganache, Hyperledger, MetaMask, Smart Contracts.
- Prompt Engineering & AI: ChatGPT, Midjourney, Gamma, BetterScan, DebugCode, 50+ AI Tools.
- Research Tools: Mendeley, LaTeX, Literature Review, Research Analysis.
- Data & Analytics: Power BI, Tableau, Google Analytics, Microsoft Clarity.
- Development & Computing: Python, HTML, CSS, MySQL, Docker, Simulink, Microsoft Office.
- Designing Tools: Canva, Adobe Illustrator, draw.io, Lucidchart.
- Marketing: SEO, Digital Marketing.

ACHIVEMENTS

- Generated $50K revenue within three months at Omics International.
- 25+ College-Level Recognitions in technical events and project exhibitions.
- Committee Member – Indian Youth Conclave, Chennai.
- VP Marketing – Tech Club, SRM University.
- Member – ERUDITE.
- Second Position – Carroms, STRINGZ Cultural Fest (2015 & 2016).

INTERNSHIP

UNIQ Technologies, India | October 2017 – December 2017

- Worked on Web Development and Animation technologies.

HCL Technologies, India | November 2016 – January 2017

- Designed customer-facing online portals and webpages.

PIL Kenya Private Limited, Kenya | April 2015 – May 2015

- Gained exposure to backend and frontend organizational operations.

LaughGuru (Remote) | February 2015 – April 2015

- Supported sales and marketing initiatives.

Achievement

- Contributed to 2% business growth.

PROJECTS

Secure Online Voting Using Blockchain and Visual Cryptography

- Blockchain | Visual Cryptography | 2021

Secure Online Voting Using Visual Cryptography

- Visual Cryptography | Web Designing | 2020

Identity-Based Access Control Framework for Distributed Cloud Services in IoT

- Cloud Computing | IoT | 2018

Malicious PDF File Detection

- RSA | String Detection | 2019

Traffic Density Detection Using Mobile Alert System

- Python | Image Processing | 2018
